(made up of an assembly of two 400 litre supports)

**1400 LITRES:**

1200 mm x 1000 mm x 1200 mm

ENVIRONNEMENT

## DESIGNED FOR OPTIMUM ERGONOMICS

**MAXIMUM  
STABILITY**

**VERY  
EASY TO  
FIT**

**A VERY  
COMPETITIVE PRICE**

The 4 volumes of Z support<sup>®</sup> allow ergonomic installation and accommodate effectively the volumes of waste to be accepted.

All our supports have a loading threshold at 1200 mm, allowing easy access for filling the bags and for the contents to settle.

### **INDUSTRIAL** sorting bags.

Our transparent, macro-perforated bags allow visual inspection of the contents, to check the nature and proper destination of the waste.

You do not need any specific equipment to handle the full bags. Packing in bags enables logistical costs to be reduced, by pooling several kinds of recyclable materials in the same container.
